FROM THORNS TO ROSES WITH DR. MARY ANN VANDE LINDE

Turning Curbside Care Lessons into “New Normal” Practice Efficiencies

Curbside care has been brutal on client relationships and is a “thorn” that many in the industry can relate to. However, the development of robust curbside care procedures has shown us the power and necessity of having efficient processes.

As practices look toward rebuilding client relationships in the “new normal,” Dr. Mary Ann Vande Linde takes an upbeat look at how to bring curbside care lessons back inside your practice and make those “roses” work for you in a way that promotes both efficiency and connections, all while supporting the work-life balance our teams so rightly deserve.
